A. Saunders, of Richmond, Va., dived into a deep pool in the Potomac river and brought out little Tom Thompson, who was sinking for the last time.

The little fellow had been playing in an empty boat and fell into the water beyond his depth. His perilous position was soon realized by Richard Saunders, who promptly went to his rescue, and having been rescued, the boy, was in consequence a good swimmer.

The families to whom both belong are summering at Cold Sulphur, and all feel deeply grateful that so serious a tragedy was averted.

The little hero has been overwhelmed with thanks and admiration for a presence of mind that saved much sorrow and won for him the praise and appreciation of family and guests. Tom Thompson is nine years old and the son of Mr. T. C. Thompson, of Chattanooga, Tenn.

HOBSON HEARD FROM.

Contemplating Trying to Raise Three More Spanish Vessels at Manila.

WASHINGTON, Aug. 14.—Naval Constructor Richmond Pearson Hobson is again heard from by the Navy Department to-day for the first time at any length since he was assigned to duty in charge of the Spanish ships raised from Manila harbor, and now under the command of Hong Kong.

His report is unusually interesting, in general questions, such as the needs of a large dock-yard in the Orient, the increasing shipping at Manila and the prospect that Manila will succeed Hong Kong as the emporium of the East, the value of Chinese labor in all branches of industry, etc. He also says the three Spanish ships which are completed will be worth to the government about \$1,000,000.

CROKER'S CHANGE WHILE RURAL BRAN

Tammany is Very Unpopular in the South and West.

CROKER FOR RULE OR RUIN.

The Tammany Chief, Himself to Some Extent Dethroned, Determined to Head an Organization if He Goes Down With It.

WASHINGTON, August 14.—Special.—Great interest is being manifested here in the statement made by Richard Croker upon his return from Europe. The change of policy of the wigwag chief is a matter of great surprise to those who know him best. The conservative anti-Bryan men had it with delight.

Colonel William Dixon, for twelve years a member of the National Committee, when seen by a Times correspondent to-day, said that Croker's move will kill Bryan's chances for the nomination in 1900.

After getting expressions of opinion from all Democrats of local and national reputation now in the city, only one conclusion was reached: That Croker was right.

TAMMANY UNPOPULAR.

The hatred of Tammany throughout the South and West is regarded here as most bitter. The Democrats outside of New York city dislike the local organization, and any man supported by Tammany has little chance in the national convention.

Those who have attended the national conventions for years call up the fact that an avowed Tammany man has never received the presidential nomination.

Mr. Croker's antagonism to Bryan has helped rather than hurt that leader. It is believed here that Bryan is waning and has gone to Tammany as a last resort.

Croker has also been to a certain extent dethroned from his leadership and will try to become the head of an organization, even though he go down to defeat. This move is in the national eye.

There is a strong probability that within sixty days the letter carriers of Richmond will begin the collection of valuable mail matter direct from private residences.

This will also be true of all cities over 50,000. "The move in the delay has been," said Third Postmaster General Madden to-day, "in instituting the service in the cities of less than 100,000 but the plan will in all probability be perfected in from sixty to ninety days."

"It will be started in Richmond," he said, "and will be completed by the end of the month."

Each carrier in making his delivery rounds will carry a receipt book similar to that now used in handling special delivery letters. At any residence where it is desired to forward a registered letter or package the carrier will estimate the necessary postage in addition to the regular rate of 3 cents, and give the sender a receipt.

As it is impossible for the carrier to handle bulky packages, he will be given absolute discretion in accepting or refusing to carry mail matter. He will be equally impossible for him to carry scales for weighing matter, and hence his judgment must determine the acceptance of packages and the payment of postage. If an excess of postage is paid, it will be returned to the sender. If sufficient postage has not been paid, it will then be collected.

The carrier will write his receipt in manifold, giving one copy to the sender, the other to the registered letter and handing the other to the proper official at the postoffice, together with the article registered. It is not expected that the carriers will make collections of registered matter from business establishments.

It is admitted that the carriers will be the chief opponents of this plan, department officials say that their duties will not be materially increased, and due allowances will be made for the extra work involved.

DEL PILAR DEFEATED.

Body of Insurgents Believed to be His Scattered by Americans.

MANILA, Aug. 14.—S. A. M.—A force of United States troops from Quingua, four miles southeast from Malolos, and Ballang Busto about six miles northeast of Quingua, encountered a body of insurgents estimated at about 200, half way between Bustos and Quingua. In the engagement that ensued the Philippines were severely punished and scattered. The Americans lost one man killed.

The insurgent force is believed to have been scattered by the Transvaal Government and to have had in view the tearing up of the railroad at Bigua.

A battalion of the Twenty-first Infantry will be sent to those points to strengthen the railroad guard and reconnoiter the country in the direction of Norzagaray and on the Bustos road.

General Wheaton with the troops at Calulut, made a reconnaissance on Angeles, about four miles to the north-west where he found 60 of the enemy. He silenced their fire and then returned to Calulut.

Aid for Porto Rico.

WASHINGTON, Aug. 14.—General Weston, chief commissary, is establishing supply stations at Savannah, Atlanta, New York and Chicago to receive donations of supplies for Porto Rico.

The steamer Excelsior, of the New York and Porto Rico Steamship Company, sailing from New York on Friday, August 18th, for Ponce direct, will have no free of charge. Steamer "Maie" sailing August 31st, will do the same.

These vessels will take from 200 to 500 tons of supplies each, and the shipments for them should be marked "Relief Supplies," and should be properly packed and delivered at the pier of the steamship company referred to, Empire Stores, Brooklyn, N. Y., on or before noon of Wednesday, August 16th.

Boers Bringing War Supplies

CAPE TOWN, Aug. 14.—The reported shipment of £200,000 from London banks is believed to be due to the enormous purchases by the Transvaal Government of ammunition, provisions and forage, the supplies exceeding those of many European nations. The Boers are distributing arms to the burghers.

JOHANNESBURG, Aug. 14.—The Standard and Digges' News says to-day: "The Boers are convinced that there is nothing for them now but the arbitration of arms."

All sorts of warlike rumors are in circulation. It is allowed that the field cornets have received orders to supply all burghers with rifles gratuitously, and to subvert the Boer Government wherever the latter are still in use.

At Berry's BIG PRICE FOR SEAT IN SENATE

Half a Million Said to Be High Water Mark in Montana.

FIFTY VOTES AT \$10,000 EACH.

John B. Wellcome Accused of Bribery and the Case Has Gone to the Supreme Court—Thirty \$1,000 Bills Held Up in Full View.

The Supreme Court of Montana rendered an immensely important decision recently, says the Boston Globe. The court ordered that John B. Wellcome, of Butte, must plead in the action for his disbarment for bribery of legislators in the election last January that took place in Montana.

Wellcome, a multimillionaire, of New York and Butte, further, the court ordered that it will hear the case without the intervention of a referee.

This decision is of grave national importance. It is the first step toward arguing the question, "Can a seat in the United States Senate be bought and sold?"

The people of Montana believe that the "high-water" price, \$500,000, was paid for the seat in the "best club in the world" that Mr. Clark occupies, although the Senator's name has never been brought before the public and distinctly into the purchase.

They believe that fifty votes were bought at an average price of \$10,000, although the legislators did not get all of the half million.

To make a case before the Committee on Elections of the United States Senate, Mr. Clark was accused of bribery by the Montana Legislature last winter, for there was a Democratic majority—seventy-four Democrats, fifteen Republicans, four Silver Republicans, one Populist.

The Legislature met on January 24. Wellcome and an army of agents had appeared here the week before. Even then rumors of bribery flew thick and fast. It was plainly stated that Wellcome was paying \$10,000 apiece for Clark's votes.

On January 24, the two houses appointed a joint committee to investigate the charges of bribery, which were too persistent to be ignored.

TURNED OVER THE CASH.

Fred Whitehead, State Senator from Flathead county, and an educated man, had agreed to testify for himself. He testified before the committee and turned over to them three envelopes containing \$30,000 in cash. It was a dramatic scene when Whitehead's testimony was read before the committee.

Before the intensely excited spectators the envelopes were opened. Thirty fresh \$1,000 bills were separately held up in view. The money was turned over to the State Treasury to be reclaimed by its owner. It has never been claimed.

Next day Senator Whitehead again testified. He attacked Wellcome, whose friends and agents straightaway set up the cry, "It's all a conspiracy. The \$30,000 is Marcus Daly's money put up in a diabolical attempt to ruin Clark."

A grand jury of Helena men refused to indict any one for bribery.

Two Big Fires.

CLEVELAND, O., Aug. 14.—A fire which started about noon to-day destroyed a large section of Bore, a village of about 1,000 people, of this city. Twenty-one business places were burned. They were mainly two-story frame structures. The loss will be about \$100,000, with no insurance.

RED BLUFF CAL, Aug. 14.—The house at Tuscan Springs, Cal., destroyed by fire. One of the houses, a 10-room house, was lost. Loss, \$50,000.

Over one hundred guests, besides the employees, escaped with only personal effects. The fire was caused by a gas leak in the kitchen.

Miss Belle McKenna, an employee, was awakened in time to escape. She was but she carried her hat and lost her life.

Youngest Confederate Dead.

MOBILE, ALA., Aug. 14.—James T. Palmer, the youngest enlisted man in the Confederate army, died to-day. He was a powder monkey on the Confederate steamer Morgan, commanded by Captain Fry, of Virginia's fame and served in the terrible action of Fort Blakeley. Mobile, Ala., in April 1865, being then six years old.

A Railroad Chartered.

RALEIGH, N. C., Aug. 14.—The Secretary of State to-day incorporated the Raleigh and Eastern Railway Company. The corporation is authorized to build a railroad from Raleigh to or near Wakefield, in Wake county, or to or near Eaparbora, in Johnston county. The length of the road will be twenty miles. The capital stock is fixed at \$100,000.

AMUSEMENTS.

Bills Presented Last Night at the Various Resorts.

The habitations of success which have clothed the season of vaudeville at Main Street Park this summer were added to last night by what is and will prove to be the most ambitious bill of the term, and one that gives every promise of breaking the handsome attendance record of this popular outdoor resort.

The threatening weather last night did not affect the attendance, and the crowd taxed capacity of the grandstand.

In race-track parlance Raymond and Clark and Scott and Wilson were tied for the position of favorites. Bobby Raymond and Margie Clark are comedy makers for their finger tips, and their slings of wit, won them a triple encore besides a curtain call. Scott and Wilson more than made good the praise that had been given them in advance of their appearance. Besides being clever comedians, they do a number of physical feats that are a marvel of strength and agility. They closed the bill with a tumult of applause.

The Hale Sisters were prime entertainers through the agency of a black and white act. It is decidedly novel, and featured with active and dances that are of the latest variety. Their act is clean and thoroughly artistic.

Miss Laura Bennett became a great favorite with her accomplished rendition of "The Girl of the Year." Her act, accompanied by her own playing of a valuable and tuneful guitar, while Coulter and Starr, in black-face comedy, and a splendid exhibition of eccentric dancing, scored a heavy success.

The bill continues through the week with a matinee on Saturday.

THE ROOF GARDEN.

The largest gathering that has as yet visited the Roof Garden was handsomely entertained at the cozy, home-like sky theatre last night. The show this week is about the best that has been seen here in this season in fact, it is a bill of bill.

Foy and Clark, as clever as ever, and with a whole lot of new "business," closed the bill, and made the hit of the evening, being forced to take curtain calls after they had completed their act. "The Girl of the Year" is, indeed, very funny, the eccentricities of Mr. Foy most amusing, and Miss Clark's singing delightful.

Next to the "hit" came the Westons, a close second, in one of the best comedy acts that have been seen here. West is a clever comedian and musician, and his pretty daughters, Misses Carrie and Flore, are talented artists in their line. Their piano and violin duet, called an encore, and the singing of one of the young ladies forced her to respond to an encore.

Miss Anna Wilkes, a very pretty girl, met with prime favor from the beginning. The dainty little vocalist presents a beautiful voice, and her songs are new, good and original.

Swag and Devoe, "eccentric entertainers" live up to their line. They sing and dance cleverly, tell a lot of new jokes in rapid-fire style, and perform some clever stunts. Their act is clean and thoroughly artistic.

There is an all-star bill at the Auditorium this week, as was evidenced in the enthusiasm displayed by the largest audience of the season at that resort last night.

Following him, made his bow, and to some fresh stories and sang several new songs, there was almost continuous applause, broken only by the closing in of the curtains.

Miles and Raymond followed Henry Frey, and their act of "The Baby in the Cradle" was received with applause that was for half a minute deafening. They kidded each other, and kept on splendid terms with the audience for about twenty minutes, when almost from sheer exhaustion they were forced to withdraw and make room for the next act.
